Response To Office Action of July 21 2009 and the Interview of 10 August 2009

Sir,

The applicant thanks the examiner Mr. Mc Phillip and the supervisory examiner Ms. Beth Boswell for allowing an interview and the very helpful guidance.

As directed, the applicant has:

I. Included materials that were in the original drawings into the specification without adding new matter to address the enablement of the invention and the related claims.

Specifically:

1. Text from Fig 23 has been included in the specification to provide support for the claims 2, 6, 7, 8 and 9.
2. Texts and references have been provided from Figs 7-11 for support of claims 3, 4.

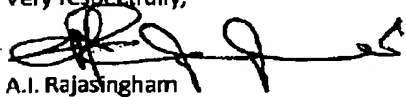

II. Amended claim 1 to include reference to the "Trust Reference" as an outcome and limiting the method to a computing device.

The Applicant has attached mark ups for entry for changes in the specification and claims.

Conclusion

The Applicant has submitted responses as required by the examiner. Moreover the applicant submits that the substitute specification and claims do not contain any new matter. If for any reason this application is not considered to be in full condition for allowance, the applicant respectfully requests the constructive assistance and suggestions of the examiner pursuant to MPEP Section 706.03(d) and MPEP Section 707.07(j) in order that the applicant can place this application in allowable condition as soon as possible and without a need for further proceedings.

Very respectfully,

A.I. Rajasingham
